

Vicor CEO Named Keynote Speaker at IEEE PESC '07

Andover, MA, June 7, 2007...Vicor Corporation (NASDAQ: VICR) announced that Patrizio Vinciarelli, CEO of Vicor, has accepted the invitation to be the Keynote Speaker at the 38th IEEE Power Electronics Specialist Conference (PESC 07) in Orlando, Florida, on June 18, 2007. The subject of his address is "Power Components: From Bricks to V•I Chips."

The conference – to be held from June 17 to 21, 2007 – is designed to provide IEEE members with the opportunity to network, share information, and learn about the latest advances in power electronics. More than 500 attendees from the research community and industry worldwide are expected. The conference includes technical sessions, tutorials, and informal discussion sessions. Topics cover design, control, analysis, modeling, and simulation of power electronic systems, converters, motor drives, semiconductor devices and technologies, magnetic devices and materials, capacitors and other energy storage elements.

Dr. Vinciarelli, who founded Vicor Corporation in 1981, has served as Chairman, President and Chief Executive Officer since the company's inception. A native of Rome, Italy, Vinciarelli came to the United States in 1970 with a doctorate degree in physics from the University of Rome. During his 10-year career in high energy physics, he was associated with New York University, the University of Maryland, Stanford Linear Accelerator Center, the European Center for Nuclear Research, the Institute for Advanced Studies in Princeton and Princeton University.

Vicor Corporation designs, develops, manufactures, and markets modular power components and complete power systems used primarily by original equipment manufacturers (OEMs) in the communications, data processing, industrial control, test equipment, medical, and defense electronics markets.
